HP L1908W 19-INCH WIDE LCD MONITOR

Enjoy the same high-definition widescreen viewing you love about your notebook

Now you can enjoy the same widescreen comfort of your notebook when you're working at the office. The large-screen HP L1908w 19-inch Wide LCD Monitor offers the essential performance features of our Essential series monitors in an elegant 19-inch diagonal screen designed for users who prefer widescreen viewing, wherever they work.

Improve how you see your work

- Get crisp, clear, high-resolution views of your graphics and data projects with a 1000:1 contrast ratio, sharp resolutions to 1440 x 900, and fast 5 ms response time
- Position the monitor for the way you work most comfortably—on the desk—or using the optional HP Quick Release[1]—a wall, arm, or bundled with another VESA-compliant device, such as an HP Thin Client or HP dc7800 USDT
- Minimize clutter on the desk or mount the monitor flush against the wall; the integrated power supply eliminates bulky "power bricks" and improves cable management
- Take advantage of smart software—HP Display Assistant lets you adjust the display through software instead of the on-screen display (OSD)
